Principal of core of common subject

Extra classes

The term curriculum has been derived from a Latin word 'Currere' which means a 'race course' or a runway on which one runs to reach a goal.

Accordingly, a curriculum is the instructional and the educative programme by following which the pupils achieve their goals, ideals and aspirations of life.

1,)extent the meeting to the library.2)extent the classroom. 3)Increase the number of classroom.3increase the computer for the student.

In every step of the curriculum development process, the most important task is to keep the learner (in this case, youth) in mind and involve them in process. For example, the curriculum team members, who have direct knowledge of the target audience, should be involved in conducting the needs assessment

it is very good higher education.
