Sports Activities Report
2019-20

Physical Education is an integral part of the total education system. It helps in the attainment of the ultimate aim of education i.e. the achievement of holistic development. Games and Sports play a vital role in the student's life. A student should study hard to be successful in competitive examinations. But, he should also play games and sports to enjoy the health and vigor of life. Along with bookish learning, a student should spend his time on games and sports also. Either study or work alone makes us exhaust. We remain no longer efficient to do any work. Sports remove our mental exhaustion. Education without sports is incomplete. With the help of college faculty we are continuously improving in sports field.

In the Academic Year of 2019-20, students of college had participated in various sports competitions organized by college and other colleges in collaboration with North Maharashtra University, Jalgaon.
