Mentor-Mentee Policy

The college life of students is changing very fast with pressures to achieve high in academics, secure jobs with respectable earnings, build their careers of their choice, and integrate learning of various skills with curriculum to ensure job security and to cope up with the information available on the social media. At the same time, with the fast advancement in international relations and developments in science, higher education is becoming more and more complex and challenging. All of this creates a lot of anxiety and uncertainties among college students about their success during and afterwards. It is a well-established fact that the turning point in the career of students is not the curriculum topics but the relationship with the mentors who may be their peers or teachers or professionals. Arts, Commerce and science college, Dharangaon, admits students from local region with diverse social, cultural and economic backgrounds. Hence, there is a requirement of continuous mentoring of students for academic, social, personal and career guidance. Looking at all these needs of students, the college created a Mentor-Mentee system where a group of students (Mentees) are assigned to a faculty (Mentor) from the same Department/faculty.
